

# Living Lab Progress

## Castelo Branco

CIA

### Product of the month

Every month since January 2022 is presented and tasted in the municipal market a new product made from local and seasonal products in CATAA.

PIA

### Social Gardens analyses

The conditions of the soil and water in the city social gardens were evaluated.

This analyses allowed the continuity of Biological farming, and the safety of the food produced.

GIA

### Food Policy Council

In December, the FPC Castelo Branco was formed and held its inaugural meeting.

In March, the FPC had the support of local social associations to evaluate the food needs of low-income citizens.

### KM 0 Bread

DIA

After identifying a lack of solutions for the whey, a by-product of local cheese factories, the FUSILLI team took matters into their own hands (quite literally) and incorporated it into the local flour production.

They transformed it into a KM 0 Bread, offering a sustainable solution.

### Acquisition of composters bin

WIA

The first step was taken towards the distribution of 1000 domestic composters bins.

Once the citizens who have requested access to these bins receive them, we will have proper training on how and when to use them effectively.
